Package 'IPEDS'

November 1, 2022

Title Data from the Integrated Post-Secondary Education Data System

Version 0.1.0

Maintainer Aushanae Haller <aushanaenhaller@gmail.com>

Description Contains data on Post-Secondary Institution Statistics in 2020 <https://nces.ed.gov/ipeds/use-the-data>. The package allows easy access to a wide variety of information regarding Post-secondary Institutions, its students, faculty, and their demographics, financial aid, educational and recreational offerings, and completions. This package can be used by students, college counselors, or involved parents interested in pursuing higher education, considering their options, and securing admission into their school of choice.

acceptance_rate   *Function for getting the acceptance rate by institution*

Description

Provides the acceptance rate for the inputted institution

Usage

```
acceptance_rate(institution_id)
```

Arguments

institution_id   Institution id. Find matching name and ids in the `dir_info2020` dataset.

Value

A statement with the acceptance rate for inputted institution.

Examples

```
acceptance_rate(167835)
acceptance_rate(100830)
```

adm2020 *Admissions and Test Scores 2020 Data*

Description

This file contains information about the undergraduate selection process for entering first-time, degree/certificate-seeking students. This includes information about admission considerations, applicants, applicants that were admitted, and admitted students who enrolled. SAT and ACT test scores are included for institutions, that require test scores for admission. These data are applicable for institutions that do not have an open admissions policy for entering first-time students. Beginning with 2016, writing scores for both SAT and ACT are no longer collected. The possible values for the admission consideration variables have changed from data prior to 2016.

admission_reqs   *Function for Admission Requirements for an Institution*

Description

Lists and orders requirements for admission by priority

Usage

```
admission_reqs(institution_id)
```

Arguments

institution_id   Institution ID. Find these on the dir_info2020 dataset.

Value

A tibble of the requirements for the inputted institution.

Examples

```
admission_reqs(167835)
admission_reqs(130794)
```

---

compare_int   *Function for Comparing (2) Institutions Side by Side, Chosen by User Input*

Description

Outputs Table Comparing Various Qualities Each Institution Has

Usage

```
compare_int(Institution1_ID, Institution2_ID)
```

Arguments

Institution1_ID
                    (numeric) 1st Institution chosen by user to be compared against Institution2
Institution2_ID
                    (numeric) 2nd Institution chosen by user to be compared against Institution1

Value

A 2 column table with the qualities of the 2 institutions being compared in the rows.

Examples

```
compare_int(Institution1_ID = 100654, Institution2_ID = 100663)
compare_int(167835, 168218)

fall_enroll2020 *Fall Enrollment 2020 Data*

Description

This file contains the number of students enrolled in the fall, by race/ethnicity, gender, attendance (full- or part-time) status and level of student. Institutions with traditional academic year calendar systems (semester, quarter, trimester or 4-1-4) report their enrollment as of October 15 or the official fall reporting date of the institution. Institutions with calendar systems that differ by program or allow continuous enrollment report students that are enrolled at any time between August 1 and October 31. This file has multiple records per institution. Records are uniquely defined by the variables IPEDS ID (UNITID), and the attendance status and level of student (EFALEVEL). Each record will contain the total enrollment, enrollment for men and women, and the total enrollment and enrollment for men and women for all nine race/ethnicity categories.

read_data *Function for importing raw data from IPEDS*

Description

Outputs data frame with desired information directly from IPEDS

Usage

```
read_data(dataset)
```

Arguments

dataset   (character) abbreviation of dataset from IPEDS. For the list of all possible datasets to import, visit the IPEDS datacenter and refer to the Data File column.

Value

A dataframe with desired information

Examples

```
read_data("IC2020")
```

---

relig_aff *Religious Affiliations Data*

Description

This file contains the details for religious affiliations in the Offerings 2020 (offerings2020) dataset.

Usage

```
relig_aff
```

Format

A data frame of 64 rows representing religious affiliations and 2 variables

Numeric_Code Numeric code representing a religious affiliation

Religious_Affiliation Explanation of numeric code

---

school_preferences   *Function for Selecting Institution by Preferences*

Description

Lists the names of institutions that fit inputted preferences

Usage

```
school_preferences(
  financial_aid = 0,
  size = -Inf,
  region = NULL,
  diversity_students = 0,
  diversity_staff = 0,
  disabled = 0,
  affiliation = -Inf,

room_price	(numeric) Price for room (0-9990)
board_price	(numeric) Price for board (0-9760)
app_fee	(numeric) Price for application fee (0-99)

Value

A data frame of the institution that fit inputted preferences. For arguments that represent percentages, the user can expect institutions that meet that percentage or higher; for arguments that represent amounts, the user can expect institutions that meet that amount or lower.

Examples

```
school_preferences(size = 2, alt_credits = "Yes", diversity_students = 30, diversity_staff = 20)
school_preferences(size = 3, daycare_service = "Yes", app_fee = 50, region = "Southeast")
```

staff_cat	*Staff Categories Data*

Description

This file contains the details for staff categories in the Administration 2020 (`admin2020`) dataset.

Usage

```
staff_cat
```

Format

A data frame of 65 rows representing staff categories and 2 variables

Numeric_Code Numeric code representing a staff category

Category Explanation of numeric code
